SUMMARY

Dynamic and versatile Full Stack Developer with nearly 2 years of experience crafting powerful, user-centric web applications. Adept at building responsive UIs using Angular, React, and Redux, paired with a solid backend foundation in NestJS and Express.js. Passionate about delivering high-performing solutions, achieving seamless API integrations, and ensuring secure, scalable systems. Proficient in leveraging cutting-edge tools like Swagger, Postman, and AWS to streamline development and deployment processes. Known for transforming complex business requirements into elegant, functional, and visually stunning web solutions. A dedicated problem solver with a sharp focus on collaboration, clean code, and elevating user experiences.
